Who We Are

Kids' Chance of California is a 501(c)3 non-profit charitable organization whose mission is to provide need-based educational scholarships to the children of California workers who have been fatally or seriously injured on the job.

Why Kids' Chance?

According to the U.S. Bureau of Labor Statistics, there were 5,486 fatal occupational injuries in the United States in 2022 (5.7% increase from 2021) with 504 in California alone. Workplace injuries represent unsafe working conditions. Serious accidents can have a devastating impact on families, especially children, as parents must face the hurdle of funding their children's education—the key to their future and ours. Together, with your help, we can make a difference in California.

Juliana

My sister and I both attend Fresno Pacific University to be close to home. Kids' Chance has given me and my family the peace of mind of covering the costs of attending a private university and has helped me to finish my degree."

Ashley

The Kids' Chance of California scholarship I have been awarded will allow me to continue my education in Criminal Justice..."
