# Kids' Chance California

## Educating Children of Injured Workers

## Who We Are

Kids' Chance of California is a 501(c)(3) non-profit charitable organization whose mission is to provide need-based educational scholarships to the children of California workers who have been fatally or seriously injured on the job.

## Why Kids' Chance?

According to the U.S. Bureau of Labor Statistics, in California alone, there are more than 350 work-related fatalities a year — 422 in 2018. Serious accidents can have a devastating impact on families, especially children, as parents must face the hurdle of funding their children's education — the key to their future and ours. Together, with your help, we can make a difference in California.
