Who We Are

Kids' Chance of California is a 501(c)3 non-profit charitable organization whose mission is to provide need-based educational scholarships to the children of California workers who have been fatally or seriously injured on the job.

Why Kids' Chance?

According to the U.S. Bureau of Labor Statistics, in California alone, there are more than 350 work-related fatalities a year—422 in 2018. Serious accidents can have a devastating impact on families, especially children, as parents must face the hurdle of funding their children's education—the key to their future and ours. Together, with your help, we can make a difference in California.

Teresa

"I grew up caring for my mom after her accident. I was exposed to reality at a young age because money has always been an issue in my household. I wouldn't be able to afford college without the help of KCOCA. They have allowed me to pursue my goal of being a physician in order to care for individuals like my mother. I will be attending my mother's alma mater, California State University, Long Beach, majoring in molecular biology and physiology."

Andrew

"What an amazing surprise and honor to receive your scholarship award! It is very humbling and has given me renewed motivation to continue volunteering in my community while working hard in classes for a degree in mechanical engineering at Cal Poly Pomona. Nose to the grindstone so to speak and one day improve the lives of others through innovation and technology I helped create. Thank you for your help, generosity, and believing in me."

Supporting Families of Injured Workers

Blayke

"My mom's brain injury has brought our family a lifetime of challenges that at times feel insurmountable. I'm so grateful for how my KCOCA scholarship eases my journey through higher education by allowing me to focus less on paying tuition and more on maximizing my college experience."

Jennifer

"After my mother's accident at work, we have been struggling financially. Fortunately, the KCOCA scholarship invested in my dream of attending the University of California Santa Barbara. I plan to graduate and apply to law school to become an Immigration lawyer."
