Who We Are

Kids' Chance of California is a 501(c)3 non-profit charitable organization whose mission is to provide need-based educational scholarships to the children of California workers who have been fatally or seriously injured on the job.

Why Kids' Chance?

According to the U.S. Bureau of Labor Statistics, there were 5,283 fatal occupational injuries in the United States in 2023. In California alone, 504 workers lost their lives on the job in 2022, reflecting the ongoing risks in our workplaces. These tragedies often leave families, especially children, facing emotional and financial hardship. The loss of a parent can make funding a child's education an overwhelming challenge. With your support, we can help ensure that these children still have access to the future they deserve. Together, we can make a meaningful difference in California.

With college being more affordable due to Kids' Chance, I can now more freely explore opportunities and interests without needing to constantly think about how to cover my short and long-term expenses.

I am grateful for the support I have received for Kids' Chance and will make the most of my educational opportunities.

Casey - Stanford University

Kids' Chance has completely changed my life and my future. My family and I lost my stepfather due to a traffic incident related to his construction job. This caused me and my younger sister to grow up without our father. However, thanks to Kids' Chance's endless support, I'm currently attending the school I dreamed of as a little girl; SDSU. I'm eternally grateful to KCCA!

Faith - San Diego State University

Supporting Families of Injured Workers

Reagan - Azusa Pacific University

Nathan - University of California, Davis

After my father's brain injury, things really changed in my life, financially and in the dynamics of my family. My father was the primary provider for my family, which meant that things got tight. The KCCA scholarship has given me the chance to pursue my dreams of becoming a teacher and teaching the next generation.

My father passed away two days before my first birthday, while protecting California's highways as a CHP officer. The KCCA scholarship will help me move to Davis, so I can be close to school and focus on pursuing my goal as a mechanical engineer. The scholarship will significantly alleviate the financial burden of school.
